**Note:

As you may be already aware, we conduct IWPSD as a Workshop (not a traditional Conference) with Invited Speakers on the one hand, and a large number of graduate students from Indian Institutions on the other.

This Workshop is organized on a shoe-string budget primarily funded by Registration of participants with only a small and uncertain fraction coming from the sponsors. The Workshop takes care of local hospitality (including food), and Guest House accommodation for those opting for it at a very nominal rate for the whole duration.

Many thanks indeed, if you have already registered.

We hope you will appreciate that your registration fee makes possible conduct of this Workshop in its present form.
