Sub: Purchase of Accelerometer and Signal conditioner

We wish to purchase a light weight Accelerometer for detection and recording of signal with frequency 0 – 1000 Hz. The accelerometer is to be mounted on an indenter sliding on a surface. We will need also a signal conditioner for data acquisition through NI card interfaced with a computer. Kindly send the quotation for the above two items along with any accessory required in sealed envelope to the undersigned by 5th July, 2013.

Thanks and regards,
