## 1. Introduction

This section describe the background and objectives of the work.

The title should be in 14-point bold typeface, centered. Leave two blank lines below the title.

Type the authors' names with 12-points plain typeface and include a superscript number (for example <sup>1</sup> and <sup>2</sup>) after each author's name. The corresponding author's name should be marked with an asterisk (\*). The list of authors should be centered. Leave one blank line under the authors' names.

Type affiliation of each author with 10-points plain typeface in the sequence of the superscript number. The required information is the department and university or the division and organization. The affiliations must be centered. The e-mail address of the corresponding author should be provided.

## 2. Materials and methods

This section should contain sufficient details so that study/experimental procedures can be repeated/duplicated by others, in conjunction with cited references.

The main body text should be typed single-spaced, justified with no indents. Please use Arial 12 pt font type. Do not exceed the dimensions given in this format. Extended abstract should not exceed 500 words. The maximum number of pages for

full length paper is eight (standard A4 sheet; 21.0 cm wide by 29.7 cm long). The upper margin is 3.0 cm. The bottom, left, and right margins are 2.5 cm. Insert figures and tables in the correct position in the article. Pages must not be numbered as the pagination will be done during the edition process.

### **3. Results and discussion**

A clear presentation of experimental results obtained, highlighting any trends or points of interest.

### **4. Conclusions**

This section should be a brief explanation of the significance and implications of the work reported.

### **Acknowledgement**

Financial support provided by any organization can be acknowledged.

### **References**

References should be listed at the end of the paper in alphabetical order of the first author's last name and separated by one blank line between each other. Make sure all references are complete, including last names and initials of all authors, year of publication, title of paper or book, volume number, issue number, publisher (in case of books), city of publication, and page numbers.

Reference should be cited in the text by indicating the last name of the first author and the year of publication, for instance, Hassan (1997); Otaki and Ohgaki (1998), Fattoruso *et al.* (2002).
